This ad is ok, but there is not an eye-catching design. I think that this needed an open house graphic at the top. and the text is difficult to read in the center at a first glance.

Clean graphics and the color was well positioned on the pages. The "High Note" and "Concert" pages looked a mess at first glance but once you got into it, the information flowed with the good color. The only negatives I had was the "Take a Bite" page would have had more impact with a bigger photo off the page but the sub head got lost in the back ground with the color selected and made it hard to

This was a very close second and I loved the "Stigma" graphic on a story that has been big news in 20 would have had better page appeal with a larger photo of the radio commentator and maybe a wrap

Good color on the graphics. Nice shot to influence the judge with the graphic on the award-winning page looked squeezed every so slightly. I think the lack of a dominant photo with the graphics would have

Great use of color and photography. I also like the play on words (underdog and underground). This is a supporter of local schools and their students. The ad copy itself is very clear and readable.

I am not sure if I would consider this an ad featuring local agriculture from any business. This is more of a supporter of local businesses. But that being said the layout and design of the page is amazing and crisp! The ads are easy to read but there is not much originality because of that too.

Content is locally centered and sourced. Layout is clean, simple, readable and aesthetically pleasing. "Sometimes more". Very nice.

Very clean and well put together. Content is local, plentiful, and meaningful. Great use of supplementary content.

Great use of graphics and local content. Simple and clean layout. Very well done. But sometimes the graphics can over shadow great quality local content.

You were the only entry. With that said, you probably had a shot at first anyway. You put out a solid effort.

Love everything about this ad!

Really caught my attention!

Love the layout and use of color.

Incredible use of resources, in-depth local coverage, useful and easy to understand information for readers. Great work.

Great local coverage with lots of useful information for readers. Incredible work.

Beautiful design skills. The creative use of white space and color is incredible. You should be very proud of your serif font for your cutlines.

Very nice work. Consider updating some fonts to a more contemporary approach. Watch drop shadow a white stroke on font with drop shadows.

Excellent work with the spread; you demonstrate the action in the narrative with vibrance and color. I love the heat and smoke; I love that each photo is also tuned to a specific texture. The viewer feels the heat and the viscosity of the foam. Great job!

This military dependent appreciated the grace and candor of the spread and in particular how the photographer's expression. There are several small moments at work, here. Excellent job!

I like that the photo story is balanced; the editor and photographer knew to prioritize people in addition to automobiles. This spread also contains a ton of photos and all with leading lines drawing the reader in. It's difficult but good work on the arrangement!

The columnist has a natural narrative voice. I also liked that he was flexible with the form of the work and humorous. Overall, excellent work!

This columnist has an eye for research-based and detail-oriented objective news craft. I like the way she describes the community she describes a sense of tone and pathos rooted in that historical context. Good job!

I love the voice in this columnist's work. The reader feels at the table, with family. Excellent job!

This ad is great! One of the best I have seen in a while. I love how you combined the kitchen appliances like they are passing on a family secret to you. The art that has the recipe is perfect, the angle of the photo is together great! If I had to give it a suggestion, I would say make the name of the store bigger. Good job!

This is great use of space in an ad. I love how it "pops" off the page a little bit. The colors are calming and the layout is perfect.

Catchy ad and it makes me want to go buy the beer!

Very well done. Simple, effective.

Great use of color. Use a bit more variety in text sizing (e.g., the list of scout names vs. the text above).

A very well-done small space ad with great design and use of color. Tightening up the text a bit would be good.

You can just feel the joy and excitement. Great work.

Great lighting and contrast.

Ability to freeze the action at the perfect moment is almost uncanny. Fantastic work.

Very good work. Some really good entries against some exceptional competition.

Terrific design, always.

Love the message. Love the business.

Marissa's columns are well-written, well-researched, and insightful. She uses evidence and practicality to lend each topic relevance and immediacy. Overall, excellent work!

I really like how these editorials address local issues in practical, well-informed ways. Readers feel like the editorial is even those that address sensitive issues. Nice work!

This writer's work is insightful and intimate at times. When dealing with difficult subject matter, balance to strike, sometimes especially when the subject matter comes out of your own life experience.

These are entertaining and informative columns and commentary. Readers should look forward to reading more.

The "Coffee" columns are good reads with innovative approaches. Good variety of columnists, too.

Beautifully done from cover to cover. All the names running one after another reveal the magnitude of some of the people behind the names. Layout, design, stories all stellar.

Bloomfield does a good job in covering its community's educational issues.

Nice variety of thought-provoking columns with each broken up to make them digestible and interesting. I also add to the depth that these columns bring to readers. I especially liked the "WHAT WERE YOU THINKING?!" That and his other columns surely garner a lot of attention and are "talkers".

What a wonderful community column. It was nostalgic to read a column like this, one that you can relate to like it, too. The one on her mother was sad and hopeful at the same time. Good work!

This is an entertaining and well-written personal column. I enjoyed reading each one because they made me read about each experience.

When I opened your first entry and read it I was impressed and thought it would be hard to beat. Then I found out I was wrong. Each story was impressive. Well written with the subject's emotions pulling through because it talked about the boy's lost loved one and you could tell they were close. Great way to deliver the message.

This was a state and national feat that needed to be documented and I was glad to see that it was. Hi! You mentioned the Iowa record books, I wonder what names you will find if you looked up home runs in record books? This will make that book as well.

Great angle to a baseball game story about the player checking on his girlfriend first before joining his place winner here. Great work.

This paper had a surprise on almost every page. The story ideas were great and the paper made good use of the space. If I were a reader, I would be excited to find this paper on my front porch every morning.

This is a solid newspaper and gives its readers a good news report every day. It just didn't have the same quality as the other papers. The headers would help readers navigate through the paper better.

Great job on the Field of Dreams coverage in August.

The Mail-Sun has an overall consistent design. The paper makes great use of boxes with stories to help readers know what to read. Our Town in the April issue was good except for the screened box on the main story. It seemed like a waste of space. Take the screen off and you have a great page. The front page relied too much on cheap design (like the blue box in the instance.) But overall a good paper.

The Sioux Center News over designed its front page. There's no need to rely on gimmicks like the blue box for itself. Nice reproduction of color photos. The Sports photos in the May issue really popped. Kudos to the photographer.

The body type could use some more leading. Often the descenders were running into the ascenders. The June issue was a nice page. The columns on the Opinion page could use some tag lines to tell the reader what to read.

This is a great photo that absolutely caught the perfect moment! You can clearly see what happened and how the players reacted. Like these are caught perfectly. Well done.

Photo shows the strength and flexibility that goes into wrestling. I think it fits really well on the page.

The West Lyon Herald does a good job of covering its community. Lots of pictures, which readers love. The layout is well done. You might consider running a serif body type; too much sans serif is hard to read. Overall, very good.

The Sioux County Index-Reporter is full of good stories for its community. Putting some information in the May 5 issue would help the readers. The pull quote on the Sports page in the February issue is too long. The cutouts are nicely done, but sometimes not necessary like the one in the May issue.

The West Branch Times is a very busy paper. The headlines scream at the reader. Try a lighter font weight. Some of the photos did not reproduce well, but the color ones did. The standing History item must be very popular. The text was stretched too much. The stories are too close together. Put a little more spacing between them. Overall, there, it just needs to be refined.

I selected this photo for first place because it as it's stated, a range of emotions. You can see the determination to grasp the excitement of the winning team. The editing is smooth and clear.

This photo captures a moment of pure joy perfectly. The Players are obviously celebrating and that is a good thing. The photo is good and nothing is washed out or too pixelated.

The photo is telling a clear story.

The photos were decent and went within the same subject but they didn't fall one after another. Some seemed out of place. But overall, great photos.

This site is really lovely and clean, and makes sure to actually differentiate itself from a print product and video-studded projects section and a host of standalone videos, for instance). This site is very navigable on mobile and desktop, and looks fairly clean overall. There's a lot of advertisement on the website. The site reads well. This site did not necessarily stand out as much as my top two picks; while it made it rise above.

I wasn't expecting an award-winning entry when I saw county fair preview. Boy, was I wrong. The v and all areas of the fair were covered from the entertainment to the agriculture. Love the DOF, love the moment.

There is good energy in this image, and a powerful moment rarely captured this well.

This reminds us all how dangerous the pandemic is and will continue to be.

The photographer captured a great moment with this image. Great expressions on the subjects, making it a great photograph.

Often times it's hard to find interesting construction shots, but the photographer did a great job capturing this moment.

The photographer did a good job finding an interesting moment at this event. Good use of color and composition.

Great work capturing not only the fire at its peak, but the firefighters desperately trying to get it under control.

Great low-light photo! The contrast of the sparks and headlamp set the scene perfectly with the darkness.

It almost looks like the horse is intentionally posing for your photo. A great example of waiting for the perfect moment.

All three photos in this feature are excellent but this one truly captures the texture and life of the bee.

Fabulous Ad! Great way to get contractors to advertise and really show off their work!

Compelling account of a very rare medical issue. Masterfully written, it had me holding my breath to see if the patient eventually came to a recovery. Just great writing!

I enjoyed following this returned soldier around town as he surprised his children with his early arrival and accompanying photos.

What a fascinating career he has had! You captured his adventurous life and interesting post very well.

A fantastic, in-depth piece. A lot of work and organization went into this effort. Good storytelling, photos brought home the devastating loss.

Well-thought out opinions with clear and concise writing.

Liked everything about these feature pages. Great stories that were well written on pertinent topics, people want to read about.

Such a varied group of stories. Each one was well researched and thought out. Pictures brought the story with a touch of whimsy to the story. Enjoyed reading all of them

Really liked the design of these pages. Such a different way to highlight the wrestlers in the circle graphic manner.

This paper was full of nice surprises. Their use of info boxes was fantastic. The color scheme on the back cover was a nice touch. Little details, like the push pin on the Accent page in the May 29 issue make all the difference. A very nice touch.

The color reproduction was great. Nice use of reader's poll on the Opinion page. There are some awkward story meanders all over the page. Try not to make the reader jump over photos to follow the story.

Photo reproduction hurt these entries. The photos didn't pop off the page. Also, the promos on 1A are a bit repetitive. The paper is laid out well and easy for readers to find the features they may be looking for.

The Daily Freeman-Journal was the only entry in this division. The paper relies too much on gimmicks like 'cough' in the March edition. The half column photo on the front page in the same edition makes it too crowded. Turning Back the Pages of Time is a nice standing feature.

This photo entry checks all the boxes of what you want in a sports photo. It is clear and sharp, you can see faces, and even the flying dirt is captured clearly where you can see individual grains of sand.

The thing I like most about this photo is it shows the athleticism of the player. It is timed extremely well.

The photographer was at the right place at the right time to capture this play. It looks like a great field effort of the players involved.

Now this is just a crazy game story to recap and you did it well. Good information, good quotes from coaches, long but not many.

Powerful story that pulls at the heartstrings, highlights a serious issue, and provides hope and info for most. Also helps show the impact just one person can make.

Descriptive lede gives insight on the subject's personality. Does a good job of showing the bitterness someone training toward a goal. Can feel the drive and determination through the writing.

Love the descriptive, scene-setting lede. The talk of a legacy between father and son sets a profound wrestling program in his home town. Sets the stage for possible redemption from opening scene.

Good coverage and well focused on the subject matter. Emotional piece, even with the hopeful ending, the reader wants to know more. Gives a strong sense of presence to the reader.

Highly engaging, a lot of detail and information from a number of people showing the work that was put in. Shows the importance of the individual to everyone involved.

Well organized. Brings in the reader with a well known person without making the story about them. Not a biography. Story is wrapped up nicely.

An important community issue that required a lot of detailed reporting.

Good reporting and flow in making a complex issue more clear.

Consistent great work and interesting topics. The variety of hosts and content keep this podcast fresh. Great use of Zoom for interviews, and provides both the audio and video versions on the website.

Cody Goodwin is an excellent broadcaster. The interviews lack great audio quality (and can hurt the listening experience in some settings). Otherwise, it's impressive work.

A fun discussion for movie buffs. The structure just lost this listener at times with different tangents.

A standard idea presented in a new and interesting way! It recognizes your new teachers while still benefiting the school as a poster, providing further exposure for your advertisers. Well done!

Gorgeous ad with the use of color, art and fonts all used to be most effective.

Great design to focus on BOTH student athletes and advertisers.

Strong design that recognizes athletes and describes their accomplishments.

The similar colors throughout the ads pull together this page! Well done!

This ad certainly grabs your attention! Love the megaphone and "We're back" followed by the cheerf

Clever concept, great page prominence, would like to have seen some updated fonts.

Beautiful color, fun concept, really makes me want to go there.

Nice design and concept. Not totally sure the reader will know what it means to put a pin on it.

Nice color and great content throughout
